Their Workplace**

Home Screen & Service Selection

Book a Home Nurse

- 
- Search for available nurses by location.
 - Apply filters (rating, availability, specialization, etc.).

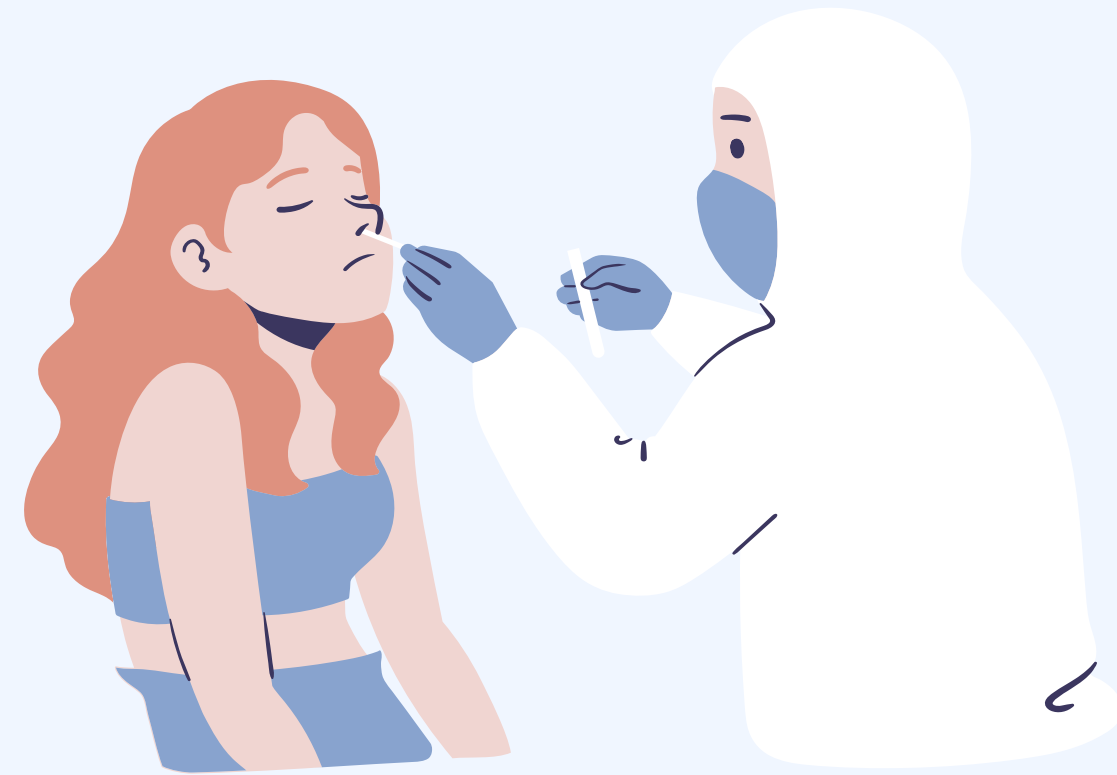

- 
- Select a nurse and open their profile.
 - View nurse details (experience, reviews, pricing).

- Choose a date & time for the visit.
- Select payment method (card, cash, e-wallets).

- Confirm and submit the request.
- View history & request details.

Visit a Nurse at Their Workplace

- View available hospitals or clinics offering this service.
- Select a facility and see listed nurses.

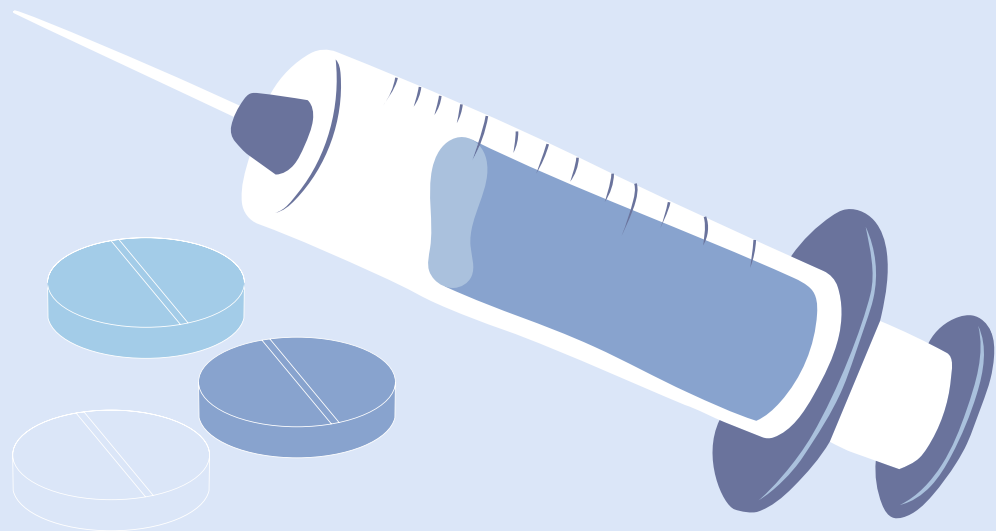

- Choose a nurse and schedule an appointment.
- Confirm details and proceed to payment.

Payment & Confirmation

- Users finalize booking by selecting a payment method.
- Options include cash, credit/debit card, e-wallets (InstaPay, Vodafone Cash, etc.).
- Once confirmed, users receive booking details and notifications.

Nurse's Workflow

- **Log in to the app.**
- **View incoming patient requests (pending).**
- **Accept or reject requests based on availability.**
- **Provide the service at the scheduled time.**
- **Receive payment and ratings.**

Post-Service Actions

**Users can track
their past
bookings.**

**Patients can rate nurses
and leave feedback.**

**Nurses improve
their profile based
on ratings.**

Summary

This user flow ensures a streamlined experience for both patients and nurses. Patients can easily find trusted nurses, while nurses manage their schedules and requests effectively

**Thank you for
your attention**
